Assistive listening devices- UHF amplification system.

Section 4.
Does the IEP team determine that current accommodations, modification, and strategies will lead to adequate success within instructional areas and tasks without the use of assistive technology?

- Yes , AT is not required. Document Results in the GSI
- No (Continue to section 5)

Section 5.

AT is required. The IEP team knows the nature and extent of the AT devices/services needed and will address AT in the student's IEP, attain the device, and create an Implementation plan.

AT may be required. The IEP determines that additional information is needed and will follow their LEA's policies and procedures to document results in the GSI, request additional AT screening, assessment, and possible AT trials by _____ Date.

GSI-Assistive Technology:

The IEP determined that assistive technology is required for Jonathan to listen and actively participate in the classroom environment. The special education teacher will contact the AT team for an amplification system that is portable enough to be transported to all classrooms. The IEP team will reconvene pending any additional concerns.
